### Question-3:

Upload a css page to the object storage and use the same page in your html code.

Solution:

New.css uploaded to the object storage and used the same page in html code

The screenshot shows the IBM Cloud Object Storage console. A warning banner at the top states: "Warning: All objects in this bucket have public view access." Below this, a table lists the objects in the bucket. The table has columns for Object name, Archived, Size, and Last modified. The objects listed are 1.css, 2.css, 3.css, 4.css, 5.css, and new-000. The new-000 object is highlighted in blue. Below the table, there is a section for uploading files, with a button labeled "upload" and a text prompt "Drag and drop files (objects) here or click to upload".

Object name	Archived	Size	Last modified
1.css		11.0 KB	2022-10-09 7:19 PM
